

Welcome to JRC-IPTS

*EFP Review Meeting in
Seville, 11 May 2011*

**Mark Boden, Vicente Carabias,
Cristiano Cagnin, Karel Haegeman, Elisabetta Marinelli**
<http://foresight.jrc.ec.europa.eu/>

European Foresight Platform

supporting forward looking decision making

www.foresightplatform.eu

- **IPTS came to Sevilla in 1994**
 - to carry out technology watch and technology assessment
 - to alert EU decision-makers about the implications of new technologies, across all technological fields, giving priority to the FP technologies
 - to research the impact of new technologies on European employment and industrial competitiveness
 - established the Institute as a centre for technology foresight

- **Has since evolved into a “Policy Studies Institute”**
 - customer-driven
 - strongly focussed within five core policy fields
 - sustainable development
 - energy and transport
 - research and innovation
 - information society
 - agriculture and rural development

**Industrial
Research and
Innovation**

**Regional
Economic
Modelling**

4 Actions

**European
Research Area-
Policies**

**European
Research Area-
Analysis**

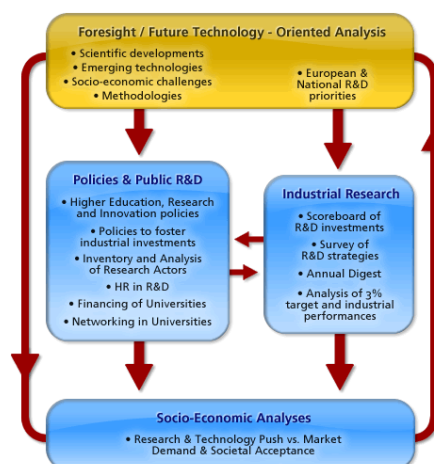

- **National Research Policy Mixes**
 - The ERAWATCH Information Platform
 - Analytical Country Reports
- **Transnational Collaboration**
 - NETWATCH Information Platform
 - Joint Programming
 - Analysis of International Cooperation
- **Foresight**
 - Application of Future-oriented Technology Analysis techniques
 - Development and dissemination of foresight methodologies
- **Energy**
 - SET Plan Capacities map

European Foresight at JRC-IPTS is

- both *applying* and *advancing* IPTS foresight competencies
- for the benefit of European Policy-making
- with a focus on Research and Innovation policies

... applies Foresight to gather anticipatory intelligence in the issues investigated and in the policy fields focus of the Knowledge for Growth Unit at JRC-IPTS.

Current and recent (FP7) projects:

- European Foresight Platform (EFP)
- SESTI: **S**canning for **E**merging **S**cience and **T**echnology **I**ssues
- Sustainable Manufacturing (IMS2020)
- WBC-INCO.NET Project
- ERA.Net RUS Project (STI cooperation with Russia)
- EIT: Priority areas for Knowledge and Innovation Communities

Exploratory and supporting actions:

- Process to support Joint Programming
- Combining qualitative and quantitative approaches

**International FTA conference in Seville, 12-13 May 2011**

- Regular meeting point for the forward-looking communities
- Focus of 2011: FLA for structural and systemic transformations in response to grand societal challenges
- Around 200 abstracts submitted
- 200 participants and 60 final papers expected
- Book of abstracts and special issues in ISI journals

**FOR-LEARN On-Line Foresight Guide**

- Aim: consolidate European expertise on Foresight through actively promoting mutual learning among Foresight practitioners and users
- Merging with EFMN
- Co-operation with Romanian project on Quality and Leadership in higher education: development of an online foresight training

Enlargement and Integration Actions

- Foresight training for NMS, CC and PCC

Purpose of the EFP Review Meeting:

*“The meeting shall serve to present and discuss the methodological approach and the resulting **framework developed to provide foresight information and support** to policy-makers and practitioners. This shall help to **refine the policy support approaches**.*

*Furthermore, the first conducted **EFP Policy Workshops** shall be reviewed in order to draw conclusions for the subsequent implementation of the foresight framework.”*

After the meeting you can pre-register < 19:00h for

The banner features the JRC logo on the left. The main text reads: "FTA and Grand Societal Challenges Shaping and Driving Structural and Systemic Transformations". Below this, it says "12 - 13 May 2011". On the left side of the banner, there is a globe icon and the text "FTA Future oriented Technology Analysis". On the right side, there is the "ipts" logo. At the bottom of the banner, it says "The 4th International Seville Conference on 'Future-Oriented Technology Analysis (FTA)'".
